Price List Appendix 2022

- To ensure the best possible flexibility for our customers, there is a large number of different article numbers.
- They can be easily separated in terms of price points, cable lengths, connections, etc.
- To assist you in reducing the part numbers on the price list: The length in bold print is the most ordered cable Length. Minimum length is the shortest length mentioned on the price list.
- Most cables are ordered with the 'standard' connector which is written first, or if possible, with our self-developed Siltech connectors.
- Usually it is sufficient for distribution partners to have these frequently ordered lengths and connectors in stock.

Legenda connectors

- SB006 is a Siltech gold-plated straight banana
- SB007 is a Siltech rhodium-plated straight banana
- SSP006 is a Siltech gold-plated spade
- SSP007 is a Siltech rhodium-plated spade
- SSP005AM is a Siltech pure silver-gold alloy spade
- SSP009 is a Siltech G9 pure silver-gold alloy spade
- SSP010 is a Siltech S10 pure monocrystal silver spade

- SC006 is a Siltech-designed RCA connector with gold-plated contact
- SST is a Siltech RCA connector with S10 monocrystal silver contact

- RSC-P is a Siltech designed OEM power connector with gold-plated tellurium copper contacts
- RDC-P is a Siltech designed OEM power connector with pure silver contacts

- TCXLR, TC RCA, TC-spade are ultra high end, Siltech designed monocrystal silver connectors; for Triple Crown only and not for sale separately

Explaining the series

Explorer Series is our entry-level cable line. We offer a high-end experience at an attractive price point, with very high quality monocrystal copper and advanced insulation materials.

Classic Legend Series is our mid-level cable line, very popular in terms of units sold and an excellent quality-price ratio as well. This twisted-twin coaxial cable and uses our proprietary and world-famous G9 silver-gold metallurgy.

Crown Series is our 35 year anniversary series, with which we wanted to bring our unique monocrystal silver conductor to a very attractive price point. The twisted pair with solid-core monocrystal silver conductor gives an excellent performance across all frequencies.

Royal Crown Series uses our S10 monocrystal silver metallurgy for all cables, in a six-core hexagon configuration. Combining all knowledge Siltech gained in 4 decades, this series is for the serious audiophile with a significant audio system.

Triple Crown is our **top-of-the-line product**, utilizing the most special constructions and the **highest possible diameter** monocrystal silver wire (if we would make it thicker, it would be impossible to bend). We, and many reviewers and users across the globe with us, believe it is the best cable in the world.

Within the series

The difference comes from the **diameter** of the **conductor** or the **amount** of **conductors** used. The diameter of the conductor increases progressively with the level of the cable. This applies to (almost) all series.

For example:

- The Classic Legend 880 uses 1.5x-2x as much conductor diameter as the Classic Legend 680.
- The Classic Legend 680 uses 1.5x-2x as much conductor diameter as the Classic Legend 380.

That is the way all our series are built up. This ensures a very constant measurable, explainable and - most importantly - audible increase of performance across our cable ranges.
